ADITYA NATH DEVA

devaaditya@gmail.com | +91 9350152284

PROFESSIONAL OBJECTIVE

To work in challenging atmosphere, which provide me ample opportunities to enhance my skills and to make significant contribution to the organization.

SUMMARY

- **15 Years of Relevant IT experience in Software Development and Design using .Net and .Net Core**
- **Good working experience of implementing different Architectural pattern in projects.**
- **Good experience of developing application using AI tools like GitHub Copilot and Cursor.**
- **Experience of Leading and Managing team up to 8 people.**
- **Good working experience in ASP. Net Core, Microservices, SQL Server, C#.Net, MVC framework, Web API, Mongo DB, ASP.Net Core Blazor.**
- **Good working experience of developing Microservices.**
- **Good working experience of developing WEB API services.**
- **Experience in working in Agile and Scrum methodology.**
- **Good working experience on AZURE cloud & Azure DevOps.**
- **Extensive experience of Developing Applications using Object Oriented Programming, Dot Net Framework 4.5/4.5.2 /.Net Core3.2/.Net Core 5.0/.Net Core 8.0**
- **Coordinate with Client, Team Members so that deliverable is being delivered with quality and on schedule.**
- **Hands on Angular.**
- Overall 18+ years of IT experience including development, support and maintenance.
- Good experience in writing Database Object i.e. Views, Stored Procedures, Triggers, Cursor, Functions
- Exposure in entire phases of Software Development Life cycle (SDLC) and Agile Methodology.
- Team player with exceptional problem solving and analytical abilities.

WORK EXPERIENCE

Zelis Healthcare India Private Limited

- Working as Senior Software Engineer Since March **2026.**
- Working on a product which helps the healthcare insurance provider to make payment easier.
- Working on tax product Intela which is helping clients to file the tax with ease.
- Leading a high-performance **team of strength 4** in a fast-paced software development environment, successfully delivering projects on time while ensuring code scalability and maintainability.

Deloitte Tax India Private Limited

- Worked as **Lead Software Engineer (Technical Architect)** Since **August 2021 to Feb 2026.**
- Involved in application architectural implementation and Azure CI/CD.
- Working on tax product Intela which is helping clients to file the tax with ease.
- Leading a high-performance **sub-team of strength 7** in a fast-paced software development environment, successfully delivering projects on time while ensuring code scalability and maintainability
- Developing Microservices & APIs in .NET Core for optimized data retrieval from external sources, resulting in significant improvements in system performance and reduced latency.

- Collaborating with diverse stakeholders to gather requirements, actively participating in technical discussions to create efficient and innovative solutions.
- Utilizing software engineering best practices such as source control, agile methodologies, and continuous improvement to enhance system performance and meet project objectives within scope, time constraints.

BM India Private Limited

- Worked as **Technical Lead from April 2021 to August 2021**.
- Worked as **SSE from Feb 2015 to March 2021**.
- Worked on financial and logistics domain projects.
- Leaded a high-performance team of 8 people in a fast-paced software development environment, successfully delivering projects on time while ensuring code scalability and maintainability
- Developed APIs in .NET Core and .Net 4.5 for optimized data retrieval from external sources, resulting in significant improvements in system performance and reduced latency.
- Collaborated with diverse stakeholders including clients to gather requirements, actively participating in technical discussions to create efficient and innovative solutions.

Classic Informatics Private Limited

- Worked as **SSE from Feb 2011 to Jan 2015**.
- Worked on different web and enterprise applications using .Net technologies.
- Used Test-Driven Development (TDD) approach to write reliable and easy-to-maintain code.
- Improved system performance by optimizing code, reducing latency and increasing efficiency

SKILLS

- Proficient in C#, .Net Core, Asp.Net, SQL Server, Mongo DB.
- Proficient in Microservices, Web API, Gherkin (Spec Flow), NUnit, API Gateway, Entity Framework, Git, Integration Test, Stryker.
- Has good understanding of various design patterns like Mediator, CQRS, Strategy, Repository, Singleton, Factory.

EDUCATION

Completed **MCA** from **U.P.T.U**, Lucknow.

ACHIEVEMENTS

- Deloitte Applause award.
- Deloitte Spot award.
- IBM Pride award.
- Classic Informatics Best performer of the Month award.
